Arthur L. Reingold, M.D., Professor of Epidemiology and Associate Dean for Research

**Professor Arthur Reingold** is the Faculty Director of the Summer Institute Program. His research interest includes:
- Opportunistic infections in AIDS patients
- Interrelationship between tuberculosis and AIDS in developing countries
- Emerging and re-emerging infections in the United States and in developing countries
- Vaccine preventable diseases in the United States and in developing countries

Michael N. Bates, Ph.D., Adjunct Professor of Epidemiology

Professor Bates will be teaching the Introduction of Epidemiology course. His research interest includes:
- Health effects of chronic exposure to hydrogen sulfide
- Health effects of biomass smoke exposure in developing countries
- Neurologic and reproductive effects of n-hexane exposure
- Health effects of inorganic arsenic in drinking water
- Cancer in firefighters
- Effects of mercury exposure from dental amalgams

Maureen Lahiff, Ph.D.
Academic Coordinator and Lecturer

Professor Lahiff will be teaching the Introduction of Biostatistic course. Her research interests include:
- Multivariate methods
- Time series and longitudinal data
- Acculturation and health
**Phuong Pham, PhD**, is the faculty mentor for the Fogarty Scholars’ Summer Program.

Her research focuses on the impact of mass violence, intrastate wars, genocide, and subsequent complex emergencies on vulnerable populations. She is a founding member of the Initiative on Vulnerable Populations and KoBo Project, which aim at applying the most appropriate research methods and technology to provide on-time data for evidence-based policy.

**Alice Gandelman** is the instructor for the Monitoring and Evaluation Modules. She also *is the* Director of the California STD/HIV Prevention Training Center (CA PTC), through the University of California, San Francisco (UCSF), and has directed the Center since 1994. She received her MPH degree in community health education from San Jose State University, and has worked in HIV, STD, hepatitis, and other public health and community programs for approximately 25 years. Alice oversees several CDC-funded national and international training and technical assistance programs, including those serving medical providers, public health workers, and staff from community based organizations.

**Diane Hinkly**, Division Manager for Epidemiology in the School of Public Health, has been employed at the University of California since 1986. Diane has been a Fogarty Administrator since 1989, first at UCSF and since 1994, at UCB. Diane will be responsible, in Professor Reingold’s absence, for the overall administrative management of the Summer program.

**Juanita Cook** has been employed at UC Berkeley for 32 years. Juanita is the Fogarty Program Coordinator and will be the point person for your appointment paperwork, your financial needs and any logistical concerns during your stay.
